Step 5

Scroll down until you see the modules.
Select 'Download PowerPoint'

A-Z OF STROKE FOR BASIC PHYSICIAN TRAINEES (BPTs)

This course has been developed for Basic Physician Trainees (BPTs) in Australia, with the overarching goal of ensuring that all BPTs are confident in managing a Code Stroke according to national best practice standards.

The program has been conjointly developed by the Australasian Stroke Academy and Angels Initiative with content written in consultation with a Steering Committee of stroke specialists from across Australia.

BPT SESSION 2 PRESENTATION

This course will take place face-to-face and will expand your knowledge from session 1, looking particularly into the early assessment and diagnosis of stroke.
